

Introducing Android Tablets in Ilm-o-Amal eLearning Centers

- Ilm-o-Amal has established 20 eLearning centers in primary schools in underprivileged areas in Pakistan.
- In these centers we offer web-based courses on core subjects including Math, Science, Humanities, English and the Quran for children.
- We provide laptops, LCD displays and Internet connections.
- In Sep 2012 we introduced Android tables in our Iqra School eLearning Center as a pilot project. It was a great success as both students and teachers liked it.
- We plan to open in excess of 100 eLearning centers in Pakistan in 2013. We plan to acquire at least 200 tablets in 2013 for these elearning centers
- Each tablet costs Rs 8,000 (the cost is projected to be Rs 5,000 in 2013)
- If you need more information visit www.ilmooamal.org/elearning.php
- Or write to info@ilmooamal.org

Your support is needed to provide tablets to underprivileged students
